

# Find Full Text

EndNote can locate full text files on the Web by using data stored in your references. Once found, EndNote downloads and attaches the files (**PDF** and **URL**) to the references.

## Steps

1. Select the reference(s) for which you would like to find and retrieve full text PDF documents.
2. Choose *References > Find Full Text > Find Full Text* or RIGHT mouse click and choose *Find Full Text > Find Full Text*.
3. The result appears under a *Find Full Text* group set. The found PDF's and URL's are automatically linked to the related reference(s).

## Preferences

Edit > Preferences > Find Full Text

## Related preferences

Edit > Preferences > PDF Handling

Edit > Preferences > URL's & Links
