

## Find Reference Updates

With the *Find Reference Updates* option, EndNote searches for available field updates for the selected references by retrieving information from source databases outside EndNote such as *Web of Science Core Collection* and *PubMed*.

### Steps

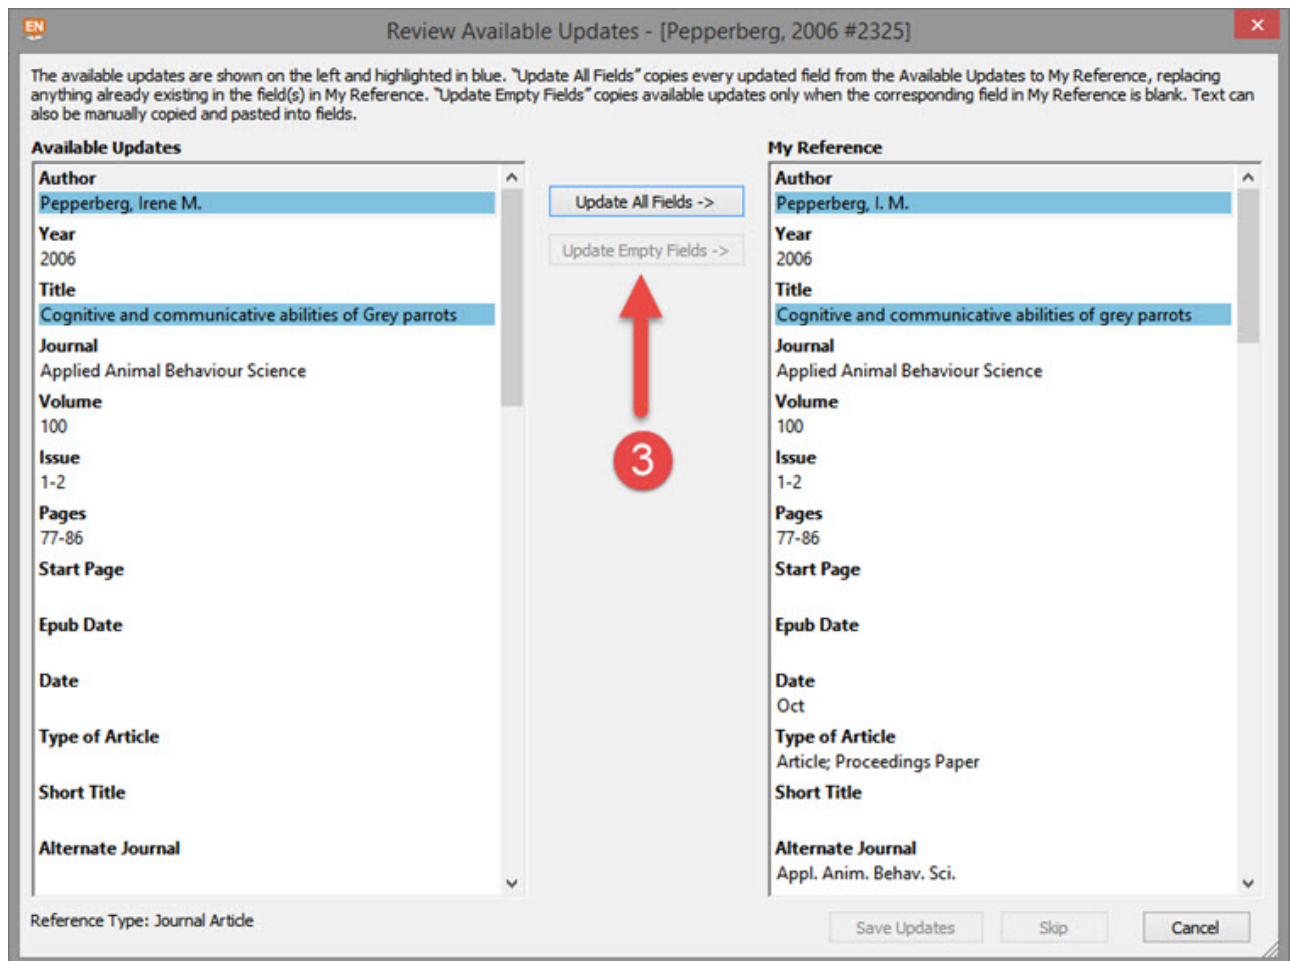

1. Select one or more references from the Reference List.
2. Choose *References > Find Reference Updates* or *RIGHT* mouse button click and choose *Find Reference Updates*.

3. The *Review Available Updates* dialog is displayed. All updates are highlighted in blue in both the *Available Updates* and *My Reference* panels.

- Click the *Update All Fields* button to update all the fields in *My Reference* panel with updated information from the *Available Updates* panel.
- Click the *Update Empty Fields* button to update every empty field in *My Reference* panel with the new information from the *Available Updates* panel.

4. Click the *Save Updates* button and click *OK* to save your changes.
